💼 Work History

2021-12 - 2022-02

Lead Web Developer

The Neighborhood, Kyiv, Ukraine

- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Introduced agile methodologies and development best practices to division to enhance product development.
- Assisted in business acquisition efforts by designing customized solutions for proposals to potential customers.
- Oversaw junior web developers and evaluate their performances
- Created wireframes to compare and decide on layouts
- Maintained technology infrastructure and collaborated with product team to implement new features and strategically plan for future products.

2018-10 - 2021-12

Full Stack Web Developer

The Neighborhood, Kyiv, Ukraine

- Designed and developed efficient and maintainable software according to business objectives and product requirements.
- Maintained technology infrastructure and collaborated with product team to implement new features and strategically plan for future products.

- Managed development milestones from initial steps through final delivery.
- Consulted with engineering team members to determine system loads and develop improvement plans.

- Wrote effective APIs
- Test applications to ensure responsiveness and efficiency
- Translated verbal requirements into written use cases and testable development stories.

2018-01 -
2018-04

Front End Developer

GoFriends, Kyiv, Kyiv

- Developed user interfaces with modern JavaScript frameworks, HTML5 and CSS3.
- Troubleshooted and debugged code ensuring compatibility with devices, browsers, and operating systems.
- Designed and implemented web components across new and existing designs.
- Supported web applications and web sites through database development.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding.

🎓 Education

2014-09 -
2018-06

BE Or BEng: Aerospace Engineering

National Aviation University - Kyiv, Ukraine

2006-09 -
2012-07

High School Diploma

Folarin Dalley International College - Abeokuta, Ogun State, Nigeria

🏆 Accomplishments

- Built single-page applications with JavaScript on a Vue.js nd Node.js
- Worked on building web-admin panel of a game available in the Play Store (Golden eggs)
- Developed front-end for various websites, using libraries ranging from jQuery, Vue.js ,React, Handlebars.js.
- Designed and developed a music streaming application JavaScript, HTML/CSS.
- Bachelor's - Aircraft and Rocket Engineering
- Learned how to code and write programs.
